• linkedin.com/in/manriqueg-daniel • https://github.com/dany-MG

Computer Systems Engineering student with a strong focus on algorithmic problem solving and the development of technological projects. Practical experience in Frontend web development and IT project management. Oriented towards the creation of efficient digital solutions with a design centered on performance and user experience.

PROFESSIONAL PROFILE

5-Band Equalizer | *Signal Processing Project* *January 2026*

- Developed the interactive user interface using the **Astro** framework, designing dynamic visual controls for intuitive manipulation of frequency ranges.
- Developed the processing engine for an equalizer, implementing the Fast Fourier Transform (FFT) for precise spectrum analysis and filtering across five key frequency ranges (60Hz, 250Hz, 1kHz, 4kHz, and 16kHz).
- Implemented responsive components to manage audio parameter adjustments, ensuring fluid communication between user actions in the browser and the underlying digital processing engine.

AI Race Engineer | *Personal Project* *March 2026*

- *Engineered a real-time race assistant for the Le Mans Ultimate simulator, utilizing **C++** for high-performance telemetry extraction and **Python** for the processing backend.*
- Integrated a local LLM via **Ollama (Llama 3.2)** to build a voice-activated agent capable of providing live strategy advice and vehicle performance analysis.

EDUCACIÓN

ESCUELA SUPERIOR DE CÓMPUTO - INSTITUTO POLITÉCNICO NACIONAL **Mexico City, Mexico**
Computer Systems Engineering *August 2023 - Present*

CENTRO DE ESTUDIOS CIENTÍFICOS Y TECNOLÓGICOS NO. 8 "NARCISO BASSOLS" **Mexico City, Mexico**
2020 - 2023
Computer Technician

ADDITIONAL SKILLS

- Technical Skills: Frontend Web Development (Astro, Tailwind CSS, JavaScript, HTML), C++, Databases (MySQL and MariaDB).
- Soft Skills: Leadership, assertive communication, problem solving, adaptability, critical and analytical thinking.
- Languages: Spanish (Native), English (B2 Conversational).
- Certifications: Google Cloud Computing Foundations Certificate.
- Key Achievements: **8th place** in the **Hackathon Desafío Latam: Innovating with AI for Global Challenges** (Oracle Academy, Sep 2025).
